

Learn how to scale, secure & simplify with expert training from Oracle. **Oracle Database 12c R2**

Oracle University Benefits

- Comprehensive set of Oracle Database 12c R2 training solutions
- Training for all job roles including: administrators, developers
- Training available as courses (ILT, LVC)
- Delivered by industry experts
- Training available for different skill levels from novice to experienced
- Industry recognized Oracle Database certifications are available

Certification

Validate your status as an Oracle Database 12c R2 expert with an Oracle certification.

Upgrade Your Skills Today

Oracle Database 12c Release 2 Training and Certification

Imagine being fully trained to manage Oracle Databases for your organization with skills that include being trained on all of the most advanced Oracle Database 12c R2 new features and capabilities. Oracle Database 12c R2 improves the quality of service and saves time with maximum availability architecture, performance and storage management capabilities. Learn more with Oracle Database training from the source including focus on some of the new features including:

- Consolidate at the schema level with Oracle Multitenant
- Discover new methods for creating pluggable database (PDBs): Hot cloning, Near-Zero downtime PDB relocation and Proxy PDB
- Embrace the Cloud with a fast, scalable, reliable and secure database platform

Be the first to maximize this new technology by getting the skills you need with Oracle University's expert-led training courses.

Recommended Courses

• Oracle Database 12c R2: New Features for Administrators Part 1 Ed 1 (5 Days)

Throughout the lessons of the Oracle Database 12c R2: New Features for Administrators Part 1 course constituted by three modules; the Using SQL New Features and Tools, the Understanding DB Architectures, and the Diagnosing Database Problems, students receive a good knowledge of the Oracle Database 12c Release 2 new and enhanced features in different areas of database administration, mainly in on-premises Multitenant databases.

• Oracle Database 12c R2: New Features for Administrators Part 2 (5 Days)

Throughout the lessons of the Oracle Database 12c R2: New Features for Administrators Part 2 course constituted by five modules; the Securing Data module, the Making Data Available module, the Partitioning Data module, the Managing Information Lifecycle module and the Monitoring DB Operations and Managing Performance module, students receive a good knowledge of the Oracle Database 12c Release 2 new and enhanced features in different areas of database administration like Unified Auditing, Transparent Data Encryption (TDE) and other areas of security, Recovery Manager, online operations, Oracle Data Pump, SQL*Loader, new partitioning methods, Automatic Data Optimization, In-Memory Column Store, Full Database In-Memory Caching, and Automatic Big Table Caching.

• Oracle Database 12c R2: Administration Workshop Ed 3 (5 Days)

This course is designed to provide you with a firm foundation in administration of an Oracle Database. In this course you will gain a conceptual understanding of Oracle Database architecture and learn how to manage an Oracle Database in an effective and efficient manner. This course covers both Database as a Cloud Service and the on-premises Oracle Database.

• Oracle Database 12c R2: Managing Multitenant Architecture Ed 2 (4 Days)

During this course, students cover a brief overview of the multitenant container database and its pluggable databases. This course covers all aspects of the multitenant architecture, providing detailed information on the components of an Oracle multitenant container database and its regular and application pluggable databases.

• Oracle Database 12c R2: High Availability New Features Ed 2 (3 Days)

This course covers High Availability new features found in the Oracle Database 12.2 release. Focus areas include Clusterware, ASM, ACFS, RAC, and Data Guard.

• Oracle Database 12c R2: Backup and Recovery Workshop Ed 3 (5 Days)

In this workshop, students learn how to perform backup and recovery based on the related Oracle Database architecture components. Various backup, failure, restore, and recovery scenarios are provided so that students learn to evaluate their own recovery requirements and develop an appropriate strategy for backup and recovery procedures. This course includes an interactive workshop, with scenarios that provide participants with opportunities to diagnose and recover from several failure situations.

• Oracle Database 12c R2: RAC Administration Ed 2 (4 Days)

This course will teach you about Oracle RAC database architecture. Expert Oracle University instructors will deep dive into Global Resources and Cache Fusion. In this course, you will be introduced to Oracle Database Exadata Cloud Service.

• Oracle Database 12c R2: ASM Administration Ed 2 (2 Days)

This course teaches you about Oracle ASM architecture. Expert Oracle University instructors will help you develop a deeper understanding of both standard ASM and Flex ASM applications. In this course, you will be introduced to Oracle Database Exadata Cloud Service.

• Oracle Database 12c R2: Clusterware Administration (4 Days)

This Oracle Database 12c R2: Clusterware Administration training will explore general cluster concepts and Oracle Clusterware architecture. Work with expert Oracle University instructors through interactive instruction and hands-on exercises to reinforce your learning. In this course, you will be introduced to Oracle Database Exadata Cloud Service.

Not sure which training is right for you?

Oracle University Learning Paths have been developed to help you plan your training.
